CORNER

W.E. "Bill" Williams, President
National Scrip Collectors Assoc.
P. O. Box 3015

.....

I made the Texas trip as planned. Had an enjoyable visit with my mother, relatives and friends. Also the New Willard sawmill homecoming drew another large crowd. It always amazes me how former residents keep coming back although the mill has been gone more than 25 years and all of the company houses have been

moved off the area.

On the way down, I visited George Chatham in Indianola, MS - Tom Robinson in Pine Bluff, Ark. - and Ralph Law in Monroe, LA. At the Texas Trade Token Collectors meeting, I saw John Ribbe, John Byars, Robert Fleet, Bill Fowler, Russ Paul, Jim Ruhland, and Leo Warren. Talked to Dick Worthington while visiting my brother in Houston. Dick had just returned from a trip to England and was very enthusiastic about some British trade tokens he had purchased.

Elsewhere in Texas, I visited Milton Bragg in Humble and Jim Ruhland in Vidor. Milton is a new collector who has roots in W.Va. Jim let me have a Chilena Nitrate Mine worker's token. It is made from vulcanite and is listed in the recent TAMS supplement by Elwin Leslie.

In Louisiana I had dinner with Glyn Farber in Lake Charles. Glyn and Louis Crawford are combining their knowledge and records and are preparing two catalogs, one for Louisiana and the other for Mississippi. Blyn is particularly interested in information on any Louisiana token which any NSCA member might have.

With the above members, I discussed the possibility of holding a satellite meeting of NSCA in the vicinity of Monroe, Louisiana designed for the lumber collectors in Arkansas, Kansas, Louisiana, Mississippi, Oklahoma and Texas and for any others who might be interested in lumber. Tentative thinking is for Monore, Louisiana in late November. Comments, suggestions and observations will be appreciated.

On my way through Alabama, I was fortunate in signing two new members, Steve Werneth in Mobile and Patton Bradford, DDS in Birmingham. Steve and his father own Bay City Coins. Dr. Bradford is a returnee. He had dropped his membership several years ago, but his interest is being renewed.

I also visited Cindy and Bob Grellman in Prattville. Cindy is preparing some public relations items for us and Bob recently was promoted to Major in the US Air Force. I also visited a relatively new member, Jim Mulkin, in Bessemer. His main interest is Alabama tokens.

Sorry that time did not enable me to contact more members. I will try to arrange my next Texas trip to see some of those I missed this time.

Since my last column, I have sold two of the Beckley meeting paperweights. I still have four left. I found that I can do the packing and postage for \$1.50. So, if you want one of the four, send me \$21.50. Don't assume that I am being deluged with orders. Send your order in now!! I want to sell the things..

In the last issue of SCRIP TALK, we printed a copy of a proposed CODE OF ETHICS which would apply to all NSCA members, and asked for comments. As of this writing, I have received only one comment. Since this Code will be binding on all members if it is passed at the October meeting, I urgently need comments, both negative and positive. How about writing me today and letting me know how you feel about a Code of Ethics for NSCA ??

Finally, it is not too early to be thinking about the Fall 1980 meeting which will be held in Richmond, Kentucky at the Holiday Inn on Friday and Saturday, October 4th and 5th. When you make your reservations (Phone 606/623/9220) remember to state that you are with NSCA since we have a block of rooms reserved. Watch for more details in SCRIP TALK.

ALL MAIL FOR THIS FEATURE TO:

Tom Hitt, Box 970, Defiance,

NOTE: Will the owners of the following tokens please either send them or rubbings to Don Edkins for listings: South Brilliant Coal Co., Brilliant, Ala. -- (Ala. 2527B5 and 3065A5 -- Ark., North Spadra Trading Co. \$1 -- Ill. 712A1 -- Ohio, Thompson Coal Co. 1¢ -- Pa. 349B1 Penn Merc. Co. Boswell -- Tex-Cannel Coal Co. -- Va. 3029B1 -- W.Va. 173A10; 2313C1; 2327B5; 2791F5; 2885D5; 3005A50; 3005D5; The Lindsey Coal Mining Co.; Marine Smokeless Coal Co. No. 2; and Wyoming 11A100.

COMMENT: In reply to last issue, Bob Craigo states that Carl Heinrich's KCSC badge probably is not West Va. for a couple of reasons. However, to be certain he needs a rubbing to show to a retired Kelly's Creek president. (1) All past Kelly's Creek Supply ID's have shown "Kelly's Creek Colliery Co.". (2) Badges generally weren't used by the company, only medal/token types (35-39mm rd, sd) were used. Thank you Bob and Mr. Heinrich should send you a rubbing as soon as he reads this article..

QUESTION: R. F. Singer, a relatively new NSCA collector (not a new token collector, though!!) sent some rubbings that had just the names and dates 1909/1914 on them and wanted to know what they were or weren't.

COMMENT: Basically, the tokens he sent were Ingle System mavericks (commonly denoted as IS09 or IS14 mavericks). The use of the tokens were the same as regular tokens, a medium of exchange, used from 1909 to 1919 and later. They were invented by the Ingle brothers and production was the Ingle System. The main use was to insure a better credit system for stores. The location for any Ingle System maverick is arbitrary - but basically a collector must search records (state directories, Bradstreets/ Dunns, gazetteers, etc. from 1909 to 1919 for the business name) and assign a location and use for the token. Elsewhere in this issue or in the next issue, an article should appear to help explain the Ingle System mavericks..

QUESTION: Steve Ratliff notes that he was successful in getting PITTSVEIN COAL CO., FLEMINGTON, W.VA. dies in a recent nail bid. While he assures me that no restrikes will be made for the market (he has only obverse die) he wants to make a lead die splash for himself and maybe for show. He wants to know the consequences of owning and making restrikes. Also, he wants to know if other denominations of the company exists other than what is catalogued (W.Va. 1031B5/B25 - both R-10 tokens).

COMMENT: The question of restrikes, owning and manufacturing, is now a legal problem as well as an ethical problem. Please obtain a copy of the Hobby Protection Act for your use and to know the consequences. Having dies placed on the market, in this manner unmarked or not defaced, in my opinion is purely inviting disaster for the token society. Coal collectors have been plagued by the use of unmarked/unrestricted dies !! Other token areas also have been invaded by the same problem. The best solution to the problem is to permit museums and archive type facilities only to have dies!! My opinion is one that no matter what die comes onto the market and to which person make no difference -- sooner or later, restrikes will appear on the market !! The Pittsvein Coal Co. tokens are very rare and no other denominations are known to me. (If you have had mail returned from Steve, try 6310 Chicago Ave., Pensacola, Florida 32506)

COMMENT: Herman Aqua showed me this new find at the Philadelphia Show - ARROW SUPPLY/CO./#2/ROCKINGHAM, PA.////PAYABLE IN MERCHANDISE/1 - (Alum, rd,sd,19mm). Mr. Aqua, please send foil or token to Don Edkins for cataloging !!

The success of this column will depend on your cooperation!! Please submit your questions and comments to keep 'the ball rolling'.

ARKANSAS COAL COMPANIES

BY

T. H. ROBINSON

Coal Mining in Arkansas Started as early as 1880 and has continued until the present time in a few locations. Current operations are mostly by the strip method and confined to a few locations in Sebastian and Franklin Counties.

Until the early 1930's, a total of sixty eight companies were involved in mining the Semi-Anthracite Hartshorne seam, that starts in Eastern Oklahoma and extends into six Counties in West Central Arkansas. The Railroads demand for this type Coal caused towns to spring up overnight and many faded just as quick when they turned to Oil to fire the boilers of their engines. Towns like Bonanza, Huntington, Hartford & Excelsior are today only peaceful communities with a Post Office and a Store or two, while others like Paris, Clarksville & Russellville have continued to thrive from resources other than Coal.

Central Coal & Coke Co. was one of the largest operations in the early 1900's and had Mine and Commissary Stores in Bonanza, Hartford & Huntington as well as several other locations in Oklahoma. Tokens from this Company will be included in this list, but have been previously reported from Oklahoma as OK1301-B5, B10 & B25. These pieces were used at most of their Stores in Arkansas & Oklahoma, which probably accounts for them being Mavericks. Many Companies ordered tokens this way and honored them at all locations, rather than bear the extra cost of having the Town & State added for each operation.

Only one token will be included in this list that is not directly connected to a Coal Company by Dodrill. The 5¢ token of Carter-Templeton Merc. Co. of Bonanza, Ark. Several small mining operations near Bonanza used this merchant to service their miners. The mine would send a written order to the merchant and he in turn would give tokens in exchange and the miner could spend them as he desired. The information on this merchant came from an old timer in Bonanza and he also said tokens were issued in all denominations of 5¢ thru \$1.00 To my knowledge, only this 5¢ piece has turned up so far.

With a total of sixty eight companies mining Coal in Arkansas and only nine known to have used tokens, it would seem that there are many more waiting to be discovered. Who will find the next one ?

NEW RIVER FUEL CO. - 9 listings 25,50,\$1 sold most frequently. Only two 5¢ pcs sold. All bids under \$10.00.

NEW RIVER SMOKELESS COAL CO. - Slightly exceeds my ten set requirement, but listed anyway because it is now a scarce set. Last set sold (1979) for \$25.00.

NOLAN MERCANTILE CO. INC., Nolan, WV - 11 listings 2 sets sold (James) \$9.00 - (Donohoe) \$16.55. Nolan is a good set. I bought the James set just to get the 10¢ pc.. the key!

NORMAN, J. R., Elk Garden, WV - 1 listing (1976) 10,25,\$1 \$3.75; A real steal! Dodrill collection had 5 thru \$5 (no 50¢). I paid about \$15.00 for it. (Ed. note: 5 & 50¢ are key pcs.)

NORMAN, E. M. & CO., Shaw, WV - 1 listing (1976) 50¢ alum sld Quints mint \$3.60..

NORTHEAST LUMBER CO. (Nolan, WV?) - 1 listing (1976) 5 thru 50¢ ISC1 \$15.00.

NORTON COAL CO., Norton, Va - No 50¢ sold! Sets 1 to \$1 and 1 to \$5 have sold for \$3.10 to \$16.55 without 50¢. Six sets sold.

NOWLIN, C.M., Freeman, WV - 2 listings - 1¢ and 25¢ MM1 - \$6.60 and \$6.75.

NUGYM STORE, Nugym, Ky - Although rated at only R-5 by Don, a 5¢ pc has never been sold! I still need it! HP \$15.00 (1979) for 10 thru \$5.00. (Ed. note: I have never seen the key 5¢.)

NURIVA SMOKELESS COAL CO., Nuriva, WV - 1 listing (1976) 5¢ ISC1 sold for \$5.75.

OAKLEY COAL MINING CO. - Listings 1¢ (1975) and 50¢ (1976) \$5.00 and \$8.60. Ed James had the 10 thru \$1 in BU condition and I paid \$15. for these.

OAKMONT SMOKELESS FUEL CO. - 5 listings NO sets sold. HP (1976) \$9.10 for 10, 25,\$1. Only one each of the 25 and \$1 sold. The 50¢ exists in this company. Ancil showed me a set which he got from another WV collector in a trade offer. The trade fell through and Ancil returned the set.

OCTAVIA J COAL MINING CO. - NO sets sold. The R-6 rated 50¢ is very tough! Ed James had a set which sold for only \$7.50. (Ed. note: I show 50¢ as rare key!).

OLD ABE MINING CO. - 4 listings 4 sets sold. LP (Donohoe) \$27.75 HP (1978) \$42.75.

OLGA COAL CO., Coalwood, WV - 8 listings 4 sets sold. Donohoe and James sets each \$27.50. (1978) A set MB\$30. sold for \$45.00. This I rate as a fine set! (Ed. note: I have noted that a \$5 pc exists altho I haven't seen one!).

OLIVE HILL FIRE BRICK CO. - 1 listing (1976) \$1 br \$3.95. The 25¢ seems scarcest in this and I need one to complete a mixed set.

ONSTAD, GEORGE L., Coalridge, Mont. - 3 listings. The 5,10,25¢ sold (1975) \$11.00. Same lot resold in 1975 for \$37.50. This was because of death of purchaser and Walter took back the lots he had purchased from his widow. Donohoe set (1975) 5,10,25¢ \$16.60.

OREGON LUMBER CO., Dee, Oregon - 2 listings. 5,10,25¢ sold for \$4.25 (1979).

ORLANDI COAL CO. - 13 listings 1 set (James) \$11.00. A real bargain! The Donohoe set with NO 25¢ (1975) \$15.00.

ORNDORFF'S, P.W., STORE, Cinco, WV - 5 sets sold (James) \$5.00 to (1978) \$16.50. A good set! I met his grand-daughter and her husband at a flea market. They were looking for a set but I didn't have an extra at the time. (Ed. note: His son lives in my town and I acquired several sets from him several years ago. Believe his supply is now all exhausted.)

OSGOOD SUPPLY CO., Lowesville, WV - 1 listing (1976) \$1 br sld Orco 2 \$4.50..a steal!

PACIFIC LUMBER CO., Scotia, Calif. - I didn't keep records of much paper scrip! A \$2.50, \$5.00, and \$10.00 Rand McNally lot (1976) \$7.85. A \$1 in Orco 2 (1976) \$3.05.

PAGE COAL & COKE CO. - 5 listings for exploders - \$3.75 to \$7.35. The 1,10,25¢ scrip have been sold. HP \$8.10.

PAGE MINING CO., Page, WV -17 listings 6 sets sold. LP \$10 to HP \$22.50. Page is also a good set! Only three sets sold since 1975.

PAN COAL CO., Garland, WV - 1 listing 1¢ ICS (ex-Donohoe) (1976) \$12.00. This 1¢ is probably unique! I have never heard of another one! (Ed. note: Ditto Charles!).

PANTHER COAL CO., Panther, WV - 33 listings for Ingle and Greenduck combined. Ingle sets sold (4) \$32.75 to \$56.10. I paid Ancil \$50. for my set 5¢ to \$1 in 1972. 1¢ pcs extremely rare! Greenduck set - 10 sets sold. (James) \$10. to \$23.00.

(Ed. note: I show no 50¢ made in the Roseann ISC2 pcs - otherwise common!).

PARKER GRAY COAL CO., Gray, Ky -8 sets sold LP (lot with two sets)(1978) \$12.35. HP (1976) 1 set 5 to \$1 \$27.10. Unknown number of sets turned up some years ago.

PARKER, J. A., LUMBER CO., Douglasville, Texas -1 listing (1977) 10¢ br sld unk \$1.35.
 PARKER, J. A., LUMBER CO., Willis, Texas - 3 listings 10,25,50,\$1 sold \$4.15 to \$5.55.
 PARDEE & CURTIN LUMBER CO. - 5 listings. 1¢ (3); 5¢ (3); 10¢ (2) sold. A 5 & 10¢ sold (1975) \$8.85. A 1¢ (1979) \$7.00. Of all the sets I would like to complete, this ranks as Number One! I still need the 50¢. Ancil once went to this company hoping to get some scrip. They had none, of course. It was destroyed with a welder's torch. They told him that about \$2,000. face value of the scrip was never turned in. Personally, I doubt that any will ever turn up. (Ed. note: 1, 5 and 10¢ is all I have ever seen.)
 PARSONS ELKHORN COAL CO. - 13 listings 3 sets sold 5¢ to \$1. LP \$15.35 HP \$18.60. The 10¢ is scarce! James had an unc that I got for \$3.75.

 PATTERSON, WALTER F. - 1 listing 1 set (James) \$22.50. I have only one pc. I got it at a flea market for face value, the \$1 pc.
 PAWAMA COAL & COKE CO. - 13 listings 6 sets sold. LP \$15.55 HP \$34.05. I got the James set for \$22.50. Pawama appears to be a good investment!

YANKEE INGENUITY?

by Cindy Grellman, NSCA #384

If you think some American mining entrepreneur invented scrip, think again! The Parys Mine Company of Anglesey Island, Wales, issued its own tokens as early as 1787. These tokens were considered the "premier tokens" of the 18th Century for two reasons - the first, chronological; the second, quantity. They issued at least 250 tons of pennies and about 50 tons of halfpennies!

The venture began in 1762 when Alexander Frazier came to Anglesey in search of mines. He visited Parys Mountain and convinced the owner, Sir Nicholas Bayley, the property most likely contained mineable minerals. They soon discovered copper ore, but the mines became overpowered with water and the project was dropped.

About two years later, another mine company, Messrs. Roe and Co. of Macclesfield, received from Sir Nicholas a mining lease on this property. They also discovered ore but their expenses were great and their mines operated at a loss. The company made a final attempt to find the "mother lode". They sank several shafts near a spring of water on the assumption it must have come from a body of mineral.

Success! In less than two days they discovered at a depth of seven feet a huge deposit of very rich copper ore. This deposit was 75 feet thick in some places.

This discovery occurred March 2, 1768, and this date has since been observed with a festival by the miners. Shortly after this discovery the mine employed about 1,200 miners. These men worked by the piece and earned from one shilling to twenty-pence per day.

Pictured is an example of the obverse and reverse of a Parys Mine Company halfpenny, and the reverse of a penny. All were manufactured at a mint built by the Parys Mines Co.

in Birmingham, England. The beauty of the designs and the artistic finish of the workmanship place them far above the regal copper currency of that period in England. The Druid pictured on the obverse of these tokens is a representation of a period when Anglesey was the home of the Druids. A Druid was a member of a Celtic religious order in ancient Britain, Ireland, and France.

We don't know if the Anglesey miners were actually paid in these tokens, but it is logical to assume so. We do know these tokens are beautiful, readily available today, and relatively inexpensive.

Reprinted from "IKO-TAMS BULLETIN" with permission of the author.

Ever pick up a brass or nickel plated token that had Pat. June 9, 1909 or Ingle System 1914 on it? That was the frontrunner of the Ingle System trade token, according to Robert Craigo, a well known Ingle System expert. The name arises from the fact that the "Ingle Brothers", Edwin, Wesley and David of Dayton, Ohio owned a grocery and needed an efficient means of

extending credit. In 1909, at 1204 East Fifth St., Dayton, Ohio, the Ingles started their metal check operation and continued with the "system style" throughout 1919.

There are two basic types of Ingle System scrip: (1) In Trade/ (denomination)/ Pat'd June 9, 1909 Ingle System (2) In Trade (only)/ Ingle (denomination) System; Pat. Apr. 7, 1914. There are many sub-divisions depending on several factors such as: (1) Size and location of the triangle. (2) alignment of the dates, commas. (3) linear arrangements. (4) combination of 1,2 and 3. I suspect that there are as many as twenty different sub-divisions, but in my collection I can only verify twelve. (See examples in SCRIPIDENT CHART in this issue of bulletin also. Editor).

Characteristics of the Ingle period are few but predominant. Few metals were used - copper, brass, white metal and rarely, zinc. In addition, a very high percentage of the tokens were brass, plated with white metal. "Punches or cut-outs" are seldom encountered. All "IS" mavericks, so far, are round, and no tokens have been found with the word "saloon" on them. Denominations were struck 1¢ to \$10 and most are the same size as other trade checks..

The basic tools needed for the Ingle System collector would consist of Bradstreet or Dun sections for his particular state(s) for the years 1909-1919. State directories, telephone directories, or any mercantile reference such as the "Southern Lumberman Directory" or gazetteers are also very helpful in attributing mavericks. There are several TAMS JOURNALS that are also very helpful on the history of the Ingle System: Vol. 12 (#1,2,3 - Feb., Aug. and June 1972) and Vol. 13 (#1 Feb. 1973). Traditionally Ingle mavericks have been fairly inexpensive and easily obtained. However, in the past year I have seen an explosion of interest evidenced by ads in the token newsletters and the prices being advertised for such tokens. The trend for collectors thus far is to trade or buy for duplicates in the \$1 to \$3 range, and buy for their collection at a reasonable price consistent with other tokens from their state. However, new price ranges are being made for the "unusual" or different wording, or a new maverick that has been attributed as coal, lumber or transportation.

The most rewarding and sometimes frustrating part of Ingle System maverick collecting is the attribution of a token. My attack plan for attribution is: (1) Make an alphabetical catalog of your mavericks on 3 x 5 cards. (2) Make an alphabetical catalog of all 'attributed' mavericks for all sources (TAMS, attributions from other collectors, yourself, catalogs, etc.). (3) List on each card this information - a. address of the previous owner. b. Where the previous owner got the token. c. Characteristics of the token (metal, size, wording, etc.) (4) Get the right years book for the type of Ingle maverick researching: IS09 maverick - use the 1909-14 books. IS14 - the 1914-19 books. (5) Search the immediate county and state where token was originally found. (6) Search in this order next - Ohio, West Virginia, Kentucky, Texas, Florida, South Carolina, Virginia and North Carolina. (7) Exception to the rule of location search: a. For large denominations (\$5-\$10) check Texas first. b. If the words "lbr., coal, supply, mining" are on token, check: Dodrill's 20,000 Coal Company Stores - Edkins Catalog - or Trantow's Lumber Company book. Then, other known state token catalogs. (8) Contact other knowledgeable IS collectors for leads and information. (9) Advertise in all newsletters, bulletins and publications for leads. (10) If after this length of time nothing has happened, I take the card and the maverick and tape the token on the reverse of the card and thumb tack it on my bulletin board under the rest of the mess that I intend to get around to sooner or later.

Collecting Ingle System mavericks can be great fun if you have a system, patience and research material.

SALE COMMENTS: As will be noted above, the Savanna Indian Territory token took top honors in the sale with a price of \$125.65. Close behind was the R-10 set of W. H. Dawson, Farmington, W.Va. (Jamison Coal Co.) which realized \$105.00. As has been noted, many of the items in the "Jensen Jewels" have never been offered before and all collectors are urged to take this opportunity to acquire these tokens at your bid prices!! We are attempting to hold the minimum bid listings down on this great collection so be sure and look closely at the tokens being offered in Sale No. 66.

As previously noted, we have several lots consigned by members for listing. These will be included in a future sale just as soon as we can get the bulk of the Jensen collection listed. Please be patient and we will get to your listings !!
